

ACA REPORTING SOLUTION

The Complex Made Simple.

www.jbcpros.com

ACA REPORTING

The Affordable Care Act (ACA) created mandatory reporting requirements for employers to disclose information about group health plan coverage to both plan participants and the IRS using Forms 1094 and 1095.

The reporting is complex and noncompliance is costly. Outsourcing your ACA reporting to JBC Pros reduces your workload and minimizes liability due to incomplete or inaccurate reporting.

OUR SOLUTION

We designed our ACA reporting solution to be easy and efficient for the employer. Employers simply provide us with their census and benefit data and we perform all the appropriate calculations to determine the correct coding needed for the reporting requirements.

Unlike payroll companies who use unreliable algorithms to determine the individual codes for the Forms 1094/1095-B/Cs, our experts are hands-on and equipped to deal with even the most complex situations.

OUR SERVICES

1. Data Collection

We offer secure and flexible data collection options.

2. Data Cleanup

We identify missing data, potential errors, and more.

3. Calculations

We determine the correct coding for Forms 1094 and 1095.

4. Reporting & Filing

We prepare, mail and e-file Forms 1094 and 1095.

5. Audit Assistance

We provide assistance with IRS 226-J letters and audits.

AT A GLANCE CHALLENGES

- Multiple, related entities
- Data from multiple sources
- Messy data

BENEFITS

- Simplified implementation process
- High-touch service model
- Higher standard of accuracy
- Expertise in coding
