ARCHIMEDES™

IT'S TIME FOR A NEW APPROACH TO MANAGING SPECIALTY DRUGS

The alarming rate of growth for specialty drug costs is a top concern for employers of all sizes

1 – 2%
of members

220K
Average annual cost per user for new specialty drugs in 2022

2M+
Annual cost per user for certain rare conditions

Archimedes is helping plan sponsors address the rising cost of specialty medications through our unique **Specialty PBM solution**.

Archimedes' clients are seeing an average savings of

30-54%

in specialty spend in the first year.

- Moves management of the specialty drug benefit away from the traditional PBM
- Leverages Archimedes' clinical expertise and technology to implement a robust prior authorization program and case management for high-cost specialty patients
- Utilizes Archimedes' formulary to optimize appropriate use at the lowest net cost

Archimedes Specialty PBM program offers significant benefits:

- Reduces wasteful specialty spend AND protects against future costs
- Applies clinical services and a high touch care model designed for the unique needs of specialty patients
- Aligns management of specialty drugs under the pharmacy and medical benefits
- Offers plan sponsors improved transparency and control
